## experience

---

JavaScript Engineer @ [Automattic](#) (12.2019+)

- Working on [Newspack](#)

Senior Front-End Developer @ [Netguru](#) (06.2018-09.2019)

- Developed a system of webapps for a large German fintech company.
- Developed a highly interactive, bespoke data visualisation chart for World Economic Forum's Sustainable and Impact Investing Initiatives.
- Led React part of the development of a [design system](#) for one of the largest pharmaceutical companies in the world, (which was eventually [open sourced](#)).

Front-End Developer @ [DaftCode](#) (12.2015-04.2018)

- Led a three people front-end team building a [project management webapp](#).
  - Developed multiple landing pages for products.
  - Developed a department-wide template for all frontend projects.
  - Developed several internal apps and microservices built on Node backends.
- I mostly used React and Redux, but also helped with server-side ruby (Ruby on Rails) code when it was needed.

Freelance web designer and developer (2014+)

- Developed multiple WordPress sites and interactive ads.
- Developed a [webapp for creating embeddable online quizzes](#).

Freelance graphic designer (2013-2014)

Created flyers and brochures, as well as posters for a film distribution company.

## talks

---

Writing code at the speed of thought! Or voice! Or dance? @ [Enthusiasticon](#) (25.05.2019)

In this talk, I've explored some (perhaps) ineffective but definitely interesting ideas for human-computer interaction. Did you ever ponder using your whole body instead of only fingers for programming?

## skills

---

### professional

JavaScript (ES6+) react  
redux webpack rollup  
CSS/RWD HTML TDD  
git npm Flow

### fluent enough

node express.js AWS  
WordPress bash ssh  
Docker REST APIs  
Adobe Photoshop Sketch

### hobbyist

Electron Ruby  
Ruby on Rails Unity Elm  
C# Arduino

## education

---

Participant @ [Recurse Center](#) (08-09.2016)

The Recurse Center is a *self-directed, community-driven educational retreat for programmers in New York City*. During my batch, I've developed a spaced-repetitions webapp, an online pong game, [dabbled in cryptography](#), and learned a lot about functional programming.

Bachelor of Art (Media Arts) @ Academy of Fine Arts in Warsaw (2011-2014)

As my graduation project I've developed a [website](#) for browsing through my grandfather's photography collection along with his spoken commentary.

## languages

---

English - fluent

French - conversational

German - beginner

Polish - native speaker

## etc

---

Apart from web development, I'm interested in cryptography, functional programming, and history.
